CBBC
The Center for Brain, Behavior and Cognition is aimed at promoting interdisciplinary and integrative research across the life, social, and neural sciences. It provides a dynamic forum for research collaboration, student training, and community building in the areas of brain, behavior, and cognition studies. CBBC members come from 5 different Colleges across the University Park Campus; the College of Agricultural Sciences, the College of Engineering, the College of Health and Human Development, the College of Liberal Arts, and the Eberly College of Science. The CBBC is supported by the CBBC is supported by the Huck Institutes of the Life Sciences and the Social Science Research Institute.
